Dear Mr. Horomnea:

As General Manager of the Heidi Chocolate Company, I am writing this to thank you personally for your company's support in last month.

Glass Expert was a trustful partner along the last three months since our project started. Both curved-glass partition and glass cash-point were possible due to Glass Expert efficient involvement in all the project's details.

Even since the beginning the collaboration with Glass Expert was fruitful because it was based on a very good communication with all the departments: sales, production and installing. Glass Expert supported this project by offering the proper technical solutions, the productive discussions with our architect and by transforming these ideas into reality. Glass Expert was very helpful for the successful ending of the whole project.

I hereby thank all the staff of Glass Expert for the active involvement they proved and for the efforts and the quick answers to our requests in execution of the cash-point much earlier than discussed at the beginning.

The successful ending of these two assembles made the opening of Heidi Chocolate showroom in time possible and that is why we appreciate once more Glass Expert efficiency.

Yours sincerely,

Mr. Erwin Vondenhoff

General Manager  
Heidi Chocolate
